

RCS CORSACORTA 110C74030

Master cylinder 110C74030 peerless controllability

The "RCS corsacorta" is a further evolution of the radial brake master cylinder concept, combining numerous innovations with the technical solutions implemented in the master cylinders used in MotoGP. The main innovation is the possibility of adapting the position of the braking bite point, to achieve the perfect riding feeling, using a selector located on the top of the master cylinder.
