XTREME

Goin' Xtreme

The world of technology is constantly evolving, and with it comes a need for better protection for our devices. Introducing the new SP Connect Phone Case Xtreme - the ultimate solution to keep your phone safe from all elements.

Military Drop Test Certified

We understand how important it is for our customers to have a phone case that can withstand any situation. That's why the Phone Case Xtreme has been military drop test certified, ensuring that your phone remains safe even in the toughest environments.

Waterproof Design

The Phone Case Xtreme features a completely waterproof design, making it the perfect companion for all your outdoor adventures. Whether you're hiking, camping, or simply caught in a rainstorm, rest assured that your phone will remain dry and functional.

Mud and Dust Resistant

Not only is the Phone Case Xtreme waterproof, but it is also mud and dust resistant. This means that you can take your phone with you on all your muddy and dusty adventures without worrying about damaging it.

Camera Lens Protection

The Phone Case Xtreme offers additional camera lens protection to keep your phone safe and secure while capturing all your adventures. So, you can focus on getting the perfect shot without any distractions or concerns about your phone's safety.

Full Touchscreen Functionality

One of the key features that sets SP Connect phone cases apart is our patented twist-to-lock mechanism, which securely attaches your phone to any SP Connect mount. And with the Phone Case Xtreme, you still have full touchscreen functionality, so you can access your phone's features and apps without any hassle.

Quick and Secure

Our patented twist-to-lock mechanism ensures that your phone is securely attached to any SP Connect mount, giving you peace of mind while using your device on the go. Integrated magnets allow you to quickly attach and detach your phone in a split second when using it on our everyday mounts at home or in the office.

Charging on the Go

The Phone Case Xtreme is also Magsafe compatible, allowing you to quickly charge your phone while on the go. No more worrying about running out of battery during your outdoor adventures.
